

# INSTALLATION INSTRUCTIONS - Model No. KBCS

## Vertical Baby Nappy Changing Unit

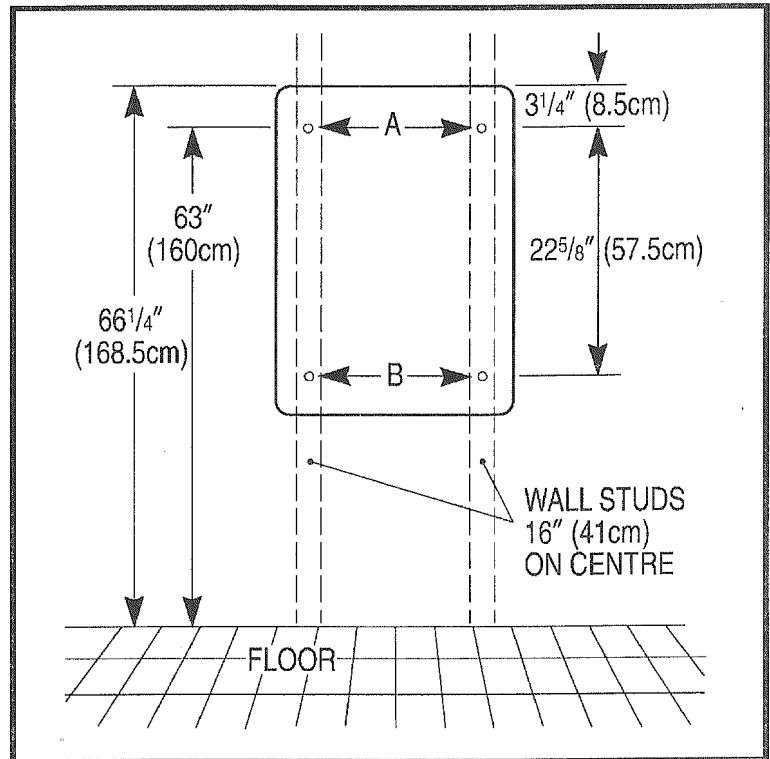

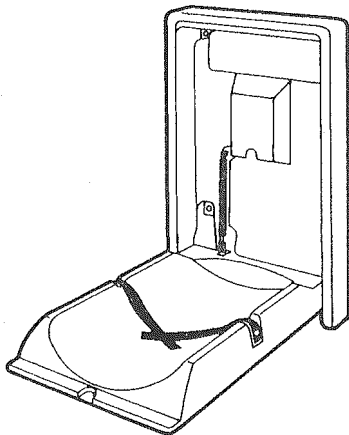

### IMPORTANT NOTES:

1. To assure proper installation, we suggest that a qualified person or carpenter install this unit.

Magrini Ltd. will not be responsible if the changing station is not installed properly.

All recommended fixings are available free of charge from Magrini - do not use less substantial fittings.

2. We recommend that the unit be installed to brickwork or blockwork. If it is necessary to fix to a stud partition wall, we recommend that at least one side is fixed into the stud. Use of the toggles should be confined to one side **only**. We **do not** recommend fixing onto toilet or changing room cubicle walls.

Suggested fixing height for Baby Changing Unit is 31" (79cm) to the bottom of the unit.

### For fixing into blockwork or brickwork:

Use No.14 screws (6.5mm dia. x 75mm long) together with large size 10mm block fixing anchor, (both supplied). DO NOT use shorter screws than 75mm.

Use the 19mm with 6.5mm hole flat washer (supplied) on all four fasteners. This is important to prevent the unit pulling over the screw heads.

### For fixing into wood or metal wall studs:

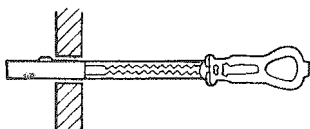

Locate the studs for fixing in the desired location. If the stud centres do not match those of the unit, make sure at least one side of the unit is installed into the stud. Use the toggles (supplied) for the holes on the other side.

Use the 6.5mm x 75mm Philips panhead tapping screw for fixing into the wall studs. Where studs are not available use 6.5mm anchor bolts and lock washer with the toggles supplied.

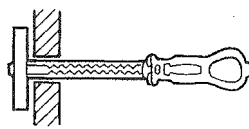

Use the 19mm with 6.5mm hole flat washer (supplied) on all four fasteners. This is important to prevent the unit pulling over the screw heads.

Replacement packs of liners are available from MAGRINI Ref: KBCS-1 (pack of 500), also available from stock are spare front door labels.

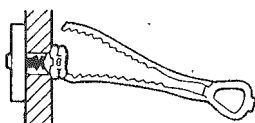

### USING THE TOGGLES (supplied)

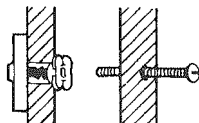

A. Insert toggle in hole drilled.

B. Pull ring and push cap tightly against wall.

C. Snap off straps.

D. Install unit using screws and washers (supplied).
